

## WARNING

1. Some bike manufacturers recommend not clamping thin-walled carbon fiber frames. Consult manufacturer for suggested clamping location.
2. To avoid damage to the seatpost or bike frame, always clean the clamping position on the bike and the jaws before clamping.

## OPOZORILO

1. Nekateri proizvajalci koles priporočajo da tanjših karbonskih koles ne vpenjate. Posvetujte se z vašim proizvajalcem koles za pravilno uporabo.
2. Da se izognete poškodbam okvirja ali sedežne opore kolesa, vedno očistite mesto vpenjanja in čeljust stojala.

## BIKE STAND PREPARATION

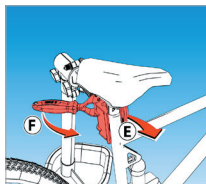

To adjust bike stand height, release lever (A) and adjust the height of stand tube (B) • Za nastavitve višine stojala sprostite vzvod (A) in nato nastavite željeno višino (B) stojala.

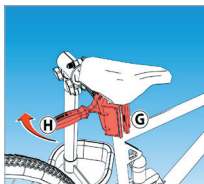

To adjust bike stand head position, release lever (C) and adjust/rotate the head (D) • Za nastavitve glave stojala sprostite vzvod (C) in nato nastavite željeno pozicijo (D) glave stojala.

## CLAMPING BIKE

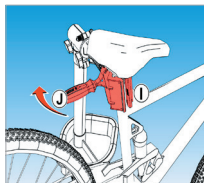

Adjust opened jaws (E) to seatpost or bike tube. Turn handle (F) until jaws firmly grabs the tube • Nastavite odprto čeljust (E) sedežno oporo ali cev okvirja. Obrnite ročaj (F) dokler čeljusti ne zajamejo celotne cevi.

## RELEASING BIKE

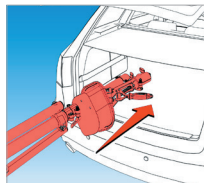

Firmly hold bike frame (G). Flip handle (H) to quickly release tube from jaws • Trdno primite okvir kolesa (G). Obrnite ročaj (H) za hitro sprostitve cevi iz čeljusti orodja.

## RELEASING BIKE

Firmly hold bike frame (I). Flip handle (J) to quickly release tube from jaws. • Trdno primite okvir kolesa (I). Obrnite ročaj orodja (J) za hitro sprostitve cevi sedeža iz čeljusti orodja.

## FOLDING FOR STORAGE

For storage/transport, fold repair bike stand like shown on picture above. • Za hranjenje/transport stojala za servisiranje koles zložite orodje kot kaže zgornja slika.
